**Technology Providers Honored by North America's Leading Project & Portfolio Management IT Executives at the 2007 Project & Portfolio Management Summit**

Bedford, NH, June 27, 2007 — Leading IT executives throughout North America recognized the latest product innovations, marketing presentations and strategic initiatives from a global lineup of Technology Provider companies at the recent "Project & Portfolio Management Innovation Awards" ceremony.

The awards program culminated three days of intensive business activity at the Project & Portfolio Management event held June 18-20, 2007 at the Boston Seaport Hotel and World Trade Center, Boston, MA. Project and Portfolio Management Summit attracted over 160 Senior Level Decision Makers, as well as more than 20 leading Technology Provider companies. The event featured private boardroom appointments led by the attending Technology Providers, one-on-one meetings between executives, Technology Providers and Gartner analysts, industry insight sessions from Gartner analysts, and a full complement of networking programs.

The "Project & Portfolio Management Innovation Awards" are the only industry awards voted on solely by Leading IT Project & Portfolio Management Executives.

"The IT Executives in attendance review many products and services at Project & Portfolio Management Summit. A Project & Portfolio Management Innovation Award signifies that the attendees viewed the winners as having a level of excellence for IT Technology Providers in their category," said Charles Badoian, Senior Global Director for Project & Portfolio Management Summit.
